

### LINK TO LEARNING: DISPLAYING MATERIALS

**Activity overview:** This learning activity invites teachers to consider how materials in the classroom are displayed. When materials are displayed thoughtfully, children can understand how to use them without a teacher's guidance.

**Directions:** In this activity, think about how to display these low-cost materials so that children know the parameters of play. (What do I do with these? How do I play with these?)

Material	Ideas
 <p>Cardboard tubes</p>	
 <p>Sticks</p>	
 <p>String</p>	
 <p>Boxes</p>	
 <p>Dirt</p>
